Company **Strength**

Aakash Yarn Industries Pvt Ltd is one of the leading Dyed Yarn Manufacturing Companies based out of Surat, India. Our promoters bring over 30 years of experience in dyeing and texturizing of synthetic yarns working with some of the largest manufacturers of man-made textiles and yarns. We manufacture these at our state of the art plant using superior grade material and advanced technology, thus ensuring compliance with defined industry standards. Our production capacity is 750 MT/ Month. We have a vertically integrated plant with in-house Draw Texturing Machines which enables us to supply consistent & high quality material to the customer

Our yarns are used in Clothing, Home Furnishing Fabric, Industrial Fabrics, Ladies Dress Material, Indian Traditional Saris, Under Garments, Knitting, Socks, Narrow Weaving Elastic Tapes, Carpets, Rugs, Bath Mats, etc.

Product Portfolio

Polyester Dyed Yarn

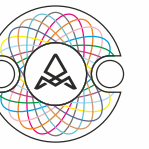

Full Dull Dyed Yarn

We process Full Dull Polyester Yarn of various denier and filaments, using our state of art technology. The yarn can be made in various colours, finishes and grades as per the requirement of our clients. Full Dull polyester dyed yarn is known for high tenacity, strength and cotton-like look. It is widely used in the production of apparels, home textiles etc.

Semi Dull Dyed Yarn

We process Semi Dull polyester yarn of various denier and filaments, using our state of art technology. Our clients can choose the yarn colour from our extensive shade card. Semi Dull Polyester Yarns are known for their colour fastness, long-lasting shine, strength and durability. They are extensively used for weaving and embroidery work in garments, Flyknit and apparels industry.

Spun Dyed Yarn

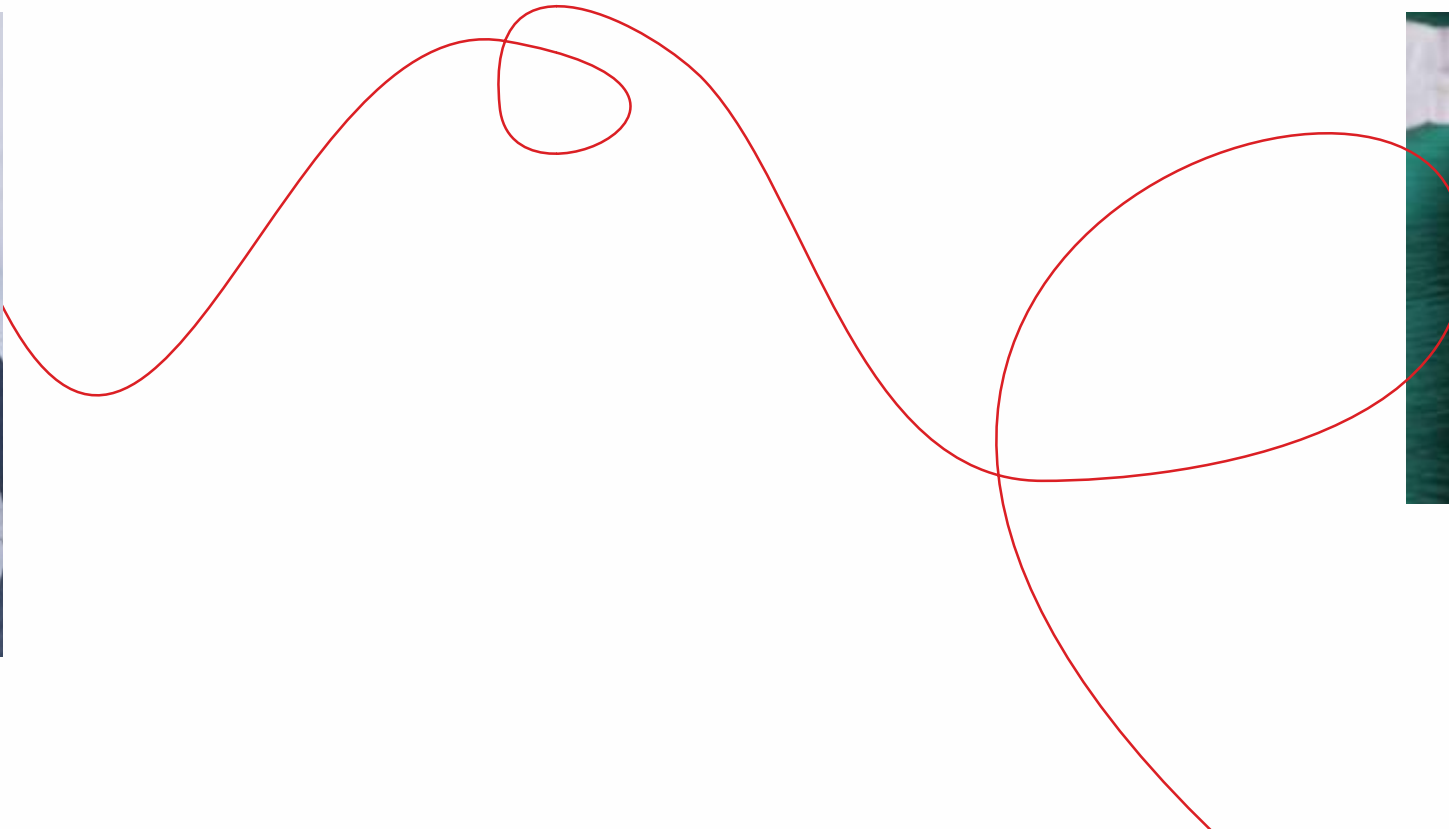

Keeping in track with the market demand, we offer a wide range of superior quality spun dyed yarns to our clients. Spun dyed yarns are widely used for sewing, weaving and embroidery in textiles. The yarn is known for their comfort rating properties, high tensile and uniformity. The yarn can be made in various colours, finishes and grades as per the requirement of our clients

Bright Polyester Dyed Yarn

We offer our clients a wide array of superior quality Bright Polyester Dyed Yarns. These yarns are known for their strength, smooth texture and colour fastness. The yarn can be made in various colours, finishes and grades as per the requirement of our clients.

Cationic Dyed Yarn

We process Cationic yarns of various grades and denier using our state of art technology. Cationic dyed yarn is used in top grade apparel, active wear, casual jackets, skirts, trousers, home textiles, toys, and fashion accessories. Cationic yarns are known for their dyeing fastness which makes them more sustainable in terms of cost as well the environment.
